

## Reach status DECLARATION

### REACH REGULATION (EC) N° 1907/2006 CANDIDATE LIST JANUARY 15, 2019 (197 SVHC)

MERSEN is a manufacturer of Articles as defined by the REACH regulation. MERSEN as a producer of a finished article is still bound to provide data under REACH to consumers of its articles.

Most materials composing the parts of our finished products are common and not particularly critical.

We maintain a constant watch on changes in the candidate list of ECHA, liaising with our suppliers, to also monitor to ensure compliancy and require them to inform us immediately of any critical change in the composition of any article concerned.

Based on the candidate list of Substances of Very High Concern (SVHC). Hereby declare that some of our products with the registered trade mark FERRAZ SHAWMUT or Mersen,

| product type         | technology/size            | class             | suffixes                |
|----------------------|----------------------------|-------------------|-------------------------|
| DC square body fuses | D70-72-272                 | SF-SG             | voltage/rating/terminal |
|                      | D120-121-122-123-2122-2123 | GB-GC-GD-SC-SD    |                         |
|                      | D300-302-2302              | GC-GE-SD-SE-SF    |                         |
|                      | D600-602-2602              | GB-GD-SB-SE-SF-SH |                         |

can contain parts made of copper alloys (Brass) such as terminals with the following substance above 0,1% weight by weight: **lead**

All information were given to the best of our Knowledge, it reflects the current state of the art.
